- WIPES

# PRESSCLEAN WASHCLOTHS

## AtéCé European number 1 in Washcloths rolls

AtéCé produces more than 30 million square meters of washcloth each year at our converting centre in Alkmaar. An incredible number that keeps growing each year to meet the challenge of our customer's needs. With our PressClean brand we are the unchallenged market leader in Europe. Our PressClean washcloth rolls - dry or impregnated - are available in Jumbo size rolls and cassette rolls. We export them to more than 120 countries around the globe.

The PressClean range consists of the following products:

- **PressClean Washcloths** Washcloth dry Rolls
- **PressClean Wet** Impregnated Washcloth cassette rolls
- **PressClean Wipes** Cleaning Wipes

## PressClean Washcloths

PressClean Washcloths – dry cassette rolls – are available in all standard widths and lengths and endless custom cut-to-size options.

### PressClean jumbo-rolls

Jumbo rolls washcloth are cut to size by the end-user himself.

### PressClean cassette rolls

Cassette rolls are available for every known brand of printing presses. They can be used for sheetfed, web offset, heatset and coldest applications. Our washcloths are suitable for usage of conventional and all UV inks such as H-UV, LED-UV, HR-UV and conventional UV.

Our PressClean Washcloths are produced in 5 different qualities:

- **PressClean IQ**  
This type of washcloth is best suited for printing blanket and a smooth impression cylinder. It is Fogra Approved.
- **PressClean White-IQ**  
This type is mostly used on Web presses. This quality is also Fogra approved.
- **PressClean CC-HQ**  
This washing cloth is best suited for usage on rough impression cylinders (after the perfecting unit). 100% PET (bulkier cloth) and lint free.
- **PressClean Duo**  
Washcloth for usage on rough impression cylinders (after the perfecting unit). 50% cellulose and 50% PET (same thickness as PressClean IQ).
- **PressClean E-IQ**  
Washcloth for Elettra washing systems.

## PressClean Wet

Also this year AtéCé has invested in the production of PressClean Wet washcloth cassette rolls with the acquisition of a brand new state of the art machine with a working width of 2920 mm. This machine allow us to produce and finetune the best quality in the market today with our own recipe. Thanks to this new and unique system we are able to deliver washcloth rolls that are vacuum packed and ready for immediate usage with unparalleled washing power. Other key advantages are less waste and a considerably shorter washing time. Our PressClean Wet cloth rolls are V.O.C. free and meet the strictest European environmental requirements.

## PressClean Wet Ultimate

Due to the unique washing agent there is no need to add water and contents no VOC. Our PressClean Wet Ultimate which is produced with our SCIS (Smart Controlled Impregnation System) gives you a fantastic performance on your press. With our SCIS (Smart Controlled Impregnation System) we can control in an unique way the amount of washing agent in each roll from left to right and from start to finish! Before we vacuum pack the roll, the roll has been weight so that the amount of washing agent is within our specifications.

Our impregnated **PressClean Wet & PressClean Wet Ultimate** washcloths are distinguished by:

- Excellent wash performance
- Impregnation is made by a unique impregnation system
- Fast 'Make ready time' due to a powerful wash
- Less waste
- Reduced washing time
- Vacuum packed
- Ready to use system
- No VOCs
- Environmentally friendly in comparison with standard conventional washing agents

## PressTex Aqua & PressTex Blue

PressTex Aqua & PressTex Blue Washcloths is produced on a new machine with another phylosophy. This means that the cloth is produced in a cross link manor. After the production the cloth is being callandered to get a special consistence thickness.

Due to this thckness there can be more milage on a roll. PressTex Aqua & PressTex Blue – dry cassette rolls – are available in standard widths and lengths. Both PressTex are Fogra approved.

### PressTex jumbo-rolls

Jumbo rolls washcloth are cut to size by the end-user himself.

### PressTex cassette-rolls

Cassette rolls are available for every known brand of printing presses, but only in standard widths and length.

## Cleaning Wipes

	Size (mm)	Packing	Quantity	Description	
PressClean-IQ wipes	340x380	Roll	500 wipes	Wipes made of the same material as our famous PressClean-IQ washcloth used on many presses around the world.

Head Office & Liquid Plant - Uitgeest, the Netherlands

### AtéCé Graphic Products

Based in the Netherlands, AtéCé Graphic Products is a leading manufacturer of a wide range of graphics consumables. AtéCé exports to more than 120 countries around the world via an extensive network of distributors.

EU Distribution Centre - Alkmaar, the Netherlands

### Producer

Since 1977, AtéCé has been a producer of, among other things, pressroom chemicals, dispersion and UV coatings and printing inks. AtéCé makes up rubber blankets, stripping plates and washcloth rolls in-house. The production sites are located in the Netherlands, in Uitgeest and Alkmaar. The various products are brought to market under its own brand names, as well as under private labels or as an OEM product.

### Distributors

AtéCé has a strong global network of distributors. Quality is an important trademark. As one of the few independent players in the market, AtéCé has a large degree of autonomy. AtéCé is a family business, this guarantees total engagement, accessibility and continuity.

**MANUFACTURER**  
SINCE 1977

Converting & Distribution Centre - Alkmaar, the Netherlands

### Product range

The PressClean product range consists of both dry and impregnated washcloth rolls. The washcloth rolls are available in cassette rolls and jumbo rolls of 500 metres. In terms of size, the AtéCé washcloth product line is one of the top three in Europe. Most AtéCé washcloth rolls bear the Fogra certificate.

PressClean Wet washcloth rolls are used for the following applications: sheetfed printing (conventional, H-UV, LED, HR-UV, UV and hybrid), web printing, coldset and heatset.

### Fogra

AtéCé supplies various graphic products approved by the independent testing institute Fogra.

The **Fogra** institute is highly regarded in the graphics sector. Fogra approves and certifies detergents, wetting water additives and washing cloths for release on the printing presses of Heidelberg, KBA and Manroland.
