# PrintCare Rubber Blankets

## Cup-Star

PrintCare Cup-Star is especially designed for dry-offset plastic printing like pots, buckets and other plastic materials. The PrintCare Cup-Star is compatible with conventional and UV dry-offset inks. Due to the construction of the PrintCare Cup-Star is smearing and smudging reduced to a minimum.

**INNOVATION** | AtéCé a major global **blanket converter** leads the industry with innovative blanket development. Our commitment is to continue developing and delivering innovative products that improve

## surface

Rubber compound	For dry-offset plastic printing
Surface	Highly compressible
Colour	White

## construction

Nominal thickness	1.95, 3.20, 3.50 or 3.90 mm (without self adhesive layer)
Ply	2 ply
Self adhesive layer (optional)	Various thicknesses of self adhesive layers can be applied

## physical property

Thickness range	1.95, 3.20, 3.50 or 3.90 mm (without self adhesive layer) +/- 0.02 mm
Overall hardness (Shore A)	60 °
