## PressClean Wet

This PressClean Wet wash cloth is made from highly absorbent wood pulp and PET which is joint together through a laminating spun laced process.

The PressClean Wet wash cloth is pre-saturated with an excellent washing agent which cleans the blanket perfectly.

It is preferred cleaning material for the Printing industry, but can also be used in the Electronic and automotive industry.

<b>Innovation</b>	AtéCé a major global <b>washcloth converter</b> leads the industry with innovative washcloth developments. Our commitment is to continue developing and delivering innovative products that improve quality and printing time on press.
<b>Technology</b>	PressClean Washcloth are being produced with the most advanced production technique available and is the next generation in Washcloths.
<b>Reliability</b>	The consistency and quality of our new Washcloths and improved control gives a superior result on press.
<b>Value</b>	Improvements provided by PressClean improving production time and reducing down-times on press.
<b>Ecology</b>	PressClean Wash cloths are another innovation from AtéCé Graphic Products.
